REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claim is allowable because the prior art fails to teach a positioning unit arranged to position each of sequentially conveyed sheets at a predetermined position, wherein the positioning unit positions a sheet at a predetermined punching position in a direction substantially orthogonal to a conveying direction of the sheet, by grasping both end portions of the sheet in a lateral direction, and the punching unit arranged to perform punching one-by-one for a sheet positioned by the positioning unit as set for in claims 1, 10 and 11.

Watanabe et al. teaches the invention substantially as claimed including a punching unit 322, a discharge unit (Fig. 3A), a stopper 324 having a contact member and the punching unit punches at least two arranged holes in the sheet (Fig. 13C). However, Watanabe et al. fails to teach the positioning unit arranged to position each of sequentially conveyed sheets at a predetermined position, wherein the positioning unit positions a sheet at a predetermined punching position in a direction substantially orthogonal to a conveying direction of the sheet, by grasping both end portions of the sheet in a lateral direction, and the punching unit arranged to perform punching one-by-one for a sheet positioned by the positioning unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
